

ATZI-NCR-PO

SUBJECT: DCSPER-HRD Meeting on Support for Army Science Board
Human Technology Study on 7 March 1983

MG Mitchell -- "O.E. is what has helped generate controversy within professionalism more than anything."

GEN Blanchard -- "We are in the training business. We must train our Lieutenants and Captains and Majors to move up...emphasize potential."

"The Army Science Board can do some things...look at things at the cutting edge that active duty folks can't without high level support."

COL Young -- "Emerging concepts and doctrinal human technology is an SSC mission."

LTC McDougal -- "We should concentrate on Combat. Focus in on soldier performance in war."

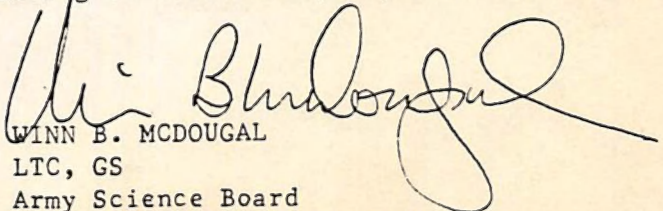

GEN Blanchard -- "The idea of the workshop has been approved by Dr. Sidwell (Chair, Human Capabilities and Resources subgroup) and Dr. Montgomery (Chair, Army Science Board)...The Army Science Board is only as helpful as the Army receives, supports and uses its recommendations...We must look at the advanced concepts too. Include at least enough exposure to the concepts to make reasonable judgements and recommendations."

Ch (MAJ) Keizer-- "The workshop is a prism for the Human Capabilities and Resources subgroup to focus on other studies. Who attends is critical...We must tie together at the end to get closure."

GEN Blanchard -- "Get a mix of grades." (Referring to military participants in the workshop.)

MG Mitchell -- "HRD will both support and participate (in the workshop)... The Army Science Board is a perfect vehicle to run the exploration while protecting the Army from criticism. We are scanning...All (human technologies) of it needs to be examined. I encourage you to have your radar looking 360 degrees. Culling for the workshop is fine but look at as much as possible."

8. SSC-NCR was tasked to brief the Human Capabilities and Resources subgroup during the Army Science Board Spring meeting at West Point, NY, 14-15 March 1983.

WINN B. MCDOUGAL

LTC, GS

Army Science Board

Study Support Project Officer

ARMY SCIENCE BOARD STUDY EFFORTS

SS FUTURE DEVELOPMENT GOAL

CHAIR: Dr. Walter B. LaBerge
SPONSOR: DCSRDA
OASA(RDA) DEPUTY: COL Erkelens
ARSTAF ASST: LTC O'Reilly

TOR dated 14 Jan 83; letters to chair and participants forwarding the TOR dated 20 Jan 83. Dr. LaBerge met with Mr. Eaton, COL Erkelens, and LTC O'Reilly on 27 Jan 83. Dr. LaBerge met with Ms. Hoeber on 27 Jan 83. The first meeting of the entire panel is scheduled for 11 Mar 83 in the Pentagon.

SS ACQUIRING ARMY SOFTWARE

CHAIR: Dr. Nicholas Yaru
SPONSOR: PDASA(RDA)
OASA(RDA) DEPUTY: Dr. Epstein
ARSTAF ASST: LTC Sisti

TOR date 14 Jan 83; letters to chair and participants forwarding TOR dated 21 Jan 83. Dr. Yaru met with Dr. Epstein and LTC Sisti 10 Feb 83. First meeting of entire panel scheduled for afternoon of 15 Mar 83 at West Point.

AHSG Updating Old Equipment

CHAIR: Mr. John R. Moore
SPONSOR: DCSOPS
OASA(RDA) DEPUTY: COL Erkelens
ARSTAF ASST: LTC Medlock

TOR in draft stage. Being reviewed and broadened. Mr. Moore met with COL Erkelens and the appropriate staff representatives (Gene Smith, LTC Medlock, LTC Blundell) on 25 Jan 83. Mr. Moore also met with MG Wagner, DAMD-RQ. Mr. Moore is working up schedule of meetings. Plans to get started prior to Spring meeting and possibly meet during Spring meeting.

AHSG Survivability on the Modern Battlefield

CHAIR: Dr. David L. Fried
SPONSOR: DCSOPS
OASA(RDA) DEPUTY: COL Ellis
ARSTAF ASST: Mr. Hartman

Dr. Fried met with Mr. Vandiver, Technical Advisor, ODCSOPS, and with Mr. Hartman on 11 Jan 83. TOR has been finalized and currently being coordinated. First meeting of the panel is tentatively scheduled for the afternoon of 15 Mar 83 at West Point.
